

FENCES:

Fence for solar power system

Details

Model Number:	SK- W	Frame Material:	Metal
Metal Type:	STEEL	Pressure Treated W...	Heat Treated
Frame Finishing:	pvc coated	Feature:	Easily Assembled, Eco-friendly, Rodent Proof, Rot Proof, water.
Usage:	garden fence, highway fence, Sport Fence, Farm Fence	Type:	Fencing, Trellis & Gates
Service:	INSTRUCTION BOOK, graphic carton	Product name:	High quality wire mesh playground fence against rusting for s..
Material:	Stainless Steel	Surface treatment:	PVC Coated
Width:	2000mm	Height:	1200mm / 1500mm / 1800mm
Mesh size:	50x150mm / 75x150 or customized	Wire diameter:	3.6mm
Color:	Brown or Customized	Application:	Garden, Farm, Factory, Solar power station
Keywords:	Playground fence, wire mesh playground fence		

Packaging & Delivery

Selling Units: Single item

Single package size: 200X120X0.03 cm

Single gross weight: 7.000 kg

Package Type: High quality wire mesh playground fence against rusting is packed as below:
(1) Fence Panel: Plastic film + metal/wooden pallet
(2) Fence Post: Plastic bags + metal/wooden pallet
(3) Fence Accessories (Clips & Screws): Plastic bags + carton box
500 Pieces / 20' GP

Installation Process

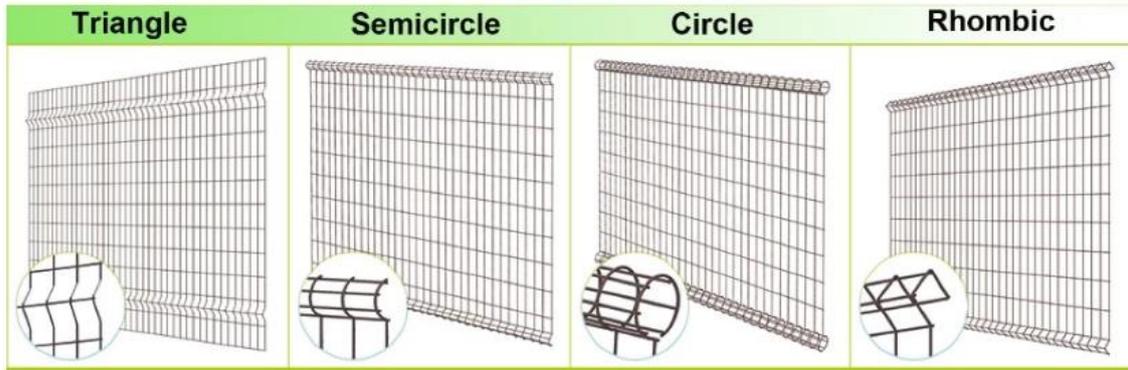

Connctor
Material :SUS304

Gap
Material:PP

J-Hook Bolt
Material:SUS304

Mesh Sheet	Width	Height	Mesh Size	Wire Diameter	Appearance Treatment
4 different shapes (as shown in the picture above)	2000mm	1200mm 1500mm 1800mm 2000mm or Customized	50*150 75*150 100*100 or Customized	Φ3.6mm Hot dip Galvanized	※ Hot Dip Galvanized ※ Flow Immersion Coating ※ Electrostatic Spraying
Note	The mesh sheet can be customized in different color, such as white, brown, green, blue and so on.				

Split - type

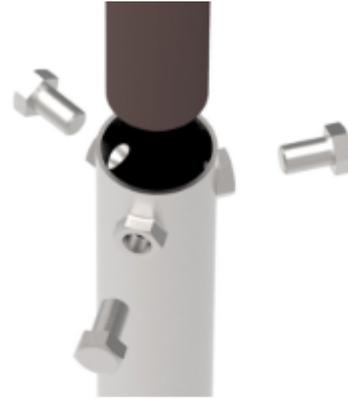

One - type

Type	One-Type Column
Diameter	Φ48mm
Height	1700mm 2000mm 2300mm
Buried Depth	450mm
Installation	Buried into ground directly

Split-Type Column

Part	Diameter (Style - A)	Diameter (Style - B)	Height	Surface Treatment
Up	Φ40	Φ48	1230mm 1530mm 1830mm	Electrostatic Spraying Flow Immersion Coating
Down	Φ48	Φ38	800mm 1000mm 1200mm	Hot Dip Galvanized
Installation	Bury the down part into ground firstly, then assemble the up part together with it.			

Galvanized fence and electrostatic powder spray (PVC coated) fence which is used for the ground solar power station, Garden, Farm, Village. Welded wire mesh fence is made of stainless steel wire with a diameter of 3.6mm, it's light enough and can guarantee the hardness. The hot-dip galvanizing process effectively exerts the rust-proof performance, it can still maintain high durability even in harsh environments. High quality wire mesh playground fence against rusting has been widely used in photovoltaic power plants, school playground, farms, residential area and so on. We can provide a variety of styles depending on the different environment.
